Living the principles

“

*I need meaningful work. Beyond the paycheck, I want my work and the time I put in to have a purpose. I have found that here. I get to help Peg grow, overcome obstacles, excel and discover new things. Honestly, the work is so rewarding that most days it doesn't feel like work. It's like I have two homes and I'm going from one home to the next. I strongly believe that if you're not invested in the individuals you're supporting, then you're not in it for the right reasons.*
