

“

*I started out as an AWC instructor and from day one I really enjoyed what I was doing and the people I was helping. I also appreciate the caring, respectful, and thoughtful environment created by those around me. What I find most rewarding is being able to help the individuals and families who have chosen UCP as their service provider. **No matter how hectic and crazy my day might be, I have the opportunity at any given moment to be the calm and caring support someone needs.** If I can make just one thing a little easier in that person's day, it is all worth it.*
