Living the principles

“

I was offered a Special Instructor position with the Early Intervention team in 2017 after 8 years leading UCP's infant/toddler classroom. I have worked with children and families from as far off as Ghana, Pakistan, and India, as well as several Hispanic countries, including my native Puerto Rico. The families I work with open the door of their home and of their heart -- and for me that is priceless. It is also priceless to see the looks of satisfaction and joy when, through our shared teamwork and commitment, their child is able to achieve a goal.
