

I stay at UCP because....

I have learned a lot through my journey as an employee at UCP. I don't look at it as a job, it's an adventure. I value every day as a day to learn something new, to broaden my horizons and help those I support broaden their horizons as well. I have learned so many things along the way from staff and individuals. I guess you could say that this was my calling from the beginning, I just hadn't realized it yet. My career with UCP has helped me strive for better, not only in my professional life but, in my personal life as well. I don't know if I have made an impact on any one individual's life but, I know that they have all made an impact on mine.

My advice for new staff...

Look at this job as more than a job, set goals and reach for them. Never stop expanding your knowledge and always look for new and innovative ways to conquer any obstacle that may come your way. Together as a team, we can make dreams happen.
