

**I stay at UCP because....** I stay at UCP because of the wonderful people we serve! UCP is a great organization to work for because they really care about their staff and individuals. Everyone works hard to ensure the individuals are given choices that really mean something to them individually. In CPS we strive hard to get individuals out into their community to volunteer and to look for opportunities for them to receive meaningful employment if that is what they desire.

**My advice for new staff....** My advice to a new staff member is to always remain open minded about the endless opportunities for everyone to learn and develop their skills. Be patient with each person you work with and celebrate along side of them the successes and milestones that each one is striving to achieve.

**Joyce Brkopac**  
Supervisor, CPS Middletown
