

### **I stay at UCP because....**

A little bit of everything is why I stay. The clients! First off! They are like I family to me. I enjoy helping people and being a part of their everyday life. Making a positive difference in someone's life is something that I place as a high priority in my life. My bosses. I enjoy working for a company that treats me with respect. Having them, makes me proud that I have a job such as this.

### **My advice for new staff...**

Always be patient, always be understanding and always be supportive. Listen! Be there for your clients because they look up to you. Your opinion counts. Treat them how you'd want to be treated if you were in their shoes.
